Dear Sir, / Dear Madam,

We would like to invite your organisation to participate in a survey to inform the development of regulatory options for a possible legal framework for access to vehicle data and for RMI requirements.

The European Commission has contracted TRL Ltd (the Transport Research Laboratory) to organise and conduct the study for the above-mentioned purpose and are providing this letter as a confirmation that the invitation you will receive to participate is genuine.

We are looking forward to your valuable input.

Yours faithfully,
